

## Sign Fabricator & Welder

### Job Summary

CSI Signs in Noblesville, Indiana is seeking an experienced, self-directed Sign Fabricator & Welder to create and assemble commercial signs and client projects. Candidate must be able to maintain professionalism, efficiency, high quality of work and finished product, and the ability to manage time and meet deadlines.

As a Sign Fabricator & Welder you'll take fabrication requests, weld, cut, glue, and assemble projects, and receive/deliver/ship finished projects. You'll also oversee inventory of materials and prepare specifications for related materials and supplies. Depending on workflow, you may also be responsible to assist with other general production needs in the shop, and the occasional install.

The environment is very fast-paced and deadline oriented. *Ability to work independently as well as part of a team is key.* If you are energetic, reliable, skilled, independent, and detail-oriented, CSI Signs may be right for you.

NOTE: Final compensation package is based on *talent*, skill, and ability.

### Job Requirements

- Positive attitude, good communicator, responsible, punctual.
- Skilled in operating applicable tools and equipment of the trade.
- Proficient in monitoring and maintaining inventory.
- Ability to apply independent judgement, personal discretion, and resourcefulness in interpreting and applying guidelines.
- You don't take shortcuts and do the job right.
- Experienced in prioritizing, organizing, and managing multiple simultaneous projects.
- Strict attention to detail.
- Strive for high quality work and go above and beyond.
- Self-motivated and can work with little to no supervision.
- CNC and Install experience not required, but a huge plus.

### Key Responsibilities

- Take and fulfill fabrication requests.
- Weld, cut, glue, and assemble projects.
- Maintain inventory and create requests for supplies / materials.
- Receive, deliver, and ship materials and finished projects.
- Assist with general production, as needed.

### Minimum Qualifications

- High School Diploma or G.E.D.
- 5+ year's fabrication / welding experience
- Valid Indiana Driver's License

**Working Conditions**

- Easy going environment but with high expectations of quality work.
- Frequent climbing, balancing, reaching, sitting, standing, walking, talking, seeing, hearing, and manual dexterity.
- Occasional lifting and carrying up to, and over, 50 pounds.
- Work is performed in a manufacturing shop environment, and occasionally outdoor environments, with potential exposure to adverse weather conditions.
- Work is performed near moving mechanical parts, and occasionally in high and precarious places.
- Potential exposure to fumes and airborne particles.

**Job Type:** Full-time

**Pay:** \$55,000.00 - \$85,000.00 per year

**Benefits:** 75% of Health care covered by employer.
